QUALIFICATION SUMMARY

Looking forward to associate myself in a challenging position in the field of Information Technology where my analytical and logical skills can be enhanced and hence prove my worth as an asset in a competitive environment.

- 3 years and 5 months of experience in the Web projects mainly in PHP and Angular JS(Front End).
- Currently Working as a Software Engineer at QuintetSolutions.
- Hands-on experience on Design, Development and Deployment of Projects in PHP, mainly on Wordpress Laravel and Codeigniter.
- Ability to lead a team to complete projects on estimated schedule, with professional quality and ability to maintain proper communication with client.
- Comprehensive problem solving abilities, excellent verbal and written communication skills, leadership quality, team facilitator, ability to adopt to new environments quickly.
- Aptitude to look into new Emerging technologies and develop open source plugins and technical blog posts.
- Zend Certified PHP Engineer.

EDUCATION

Bachelor of Technology in Information Technology - 2012

B.Tech in Information Technology from Viswajyothi college of engineering and technology, Vazhakulam. (affiliated to Mahantma Gandhi university, Kerala(2008-2012).

Mini Project - Mini Project titled "**My Gang**" in the JSP platform. This is a social networking website with added extra features.

Seminar - Seminar titled "**HTML 5 Interactive 3D Graphics**", which discusses the HTML 5 and how implement interactive 3D Graphics on webpages.

Main Project - Grid-Based Cryptography with AES Algorithm. A grid-based system for encryption and distributed storage of large amount of data.

Accomplishments

- Developed 8085 Microprocessor [simulation software](#) for Windows Operating Systems.
- Developed Customization and optimization software '[PC Boost](#)' for Microsoft Windows 7 Operating System.
- [Progle](#) - Progle helps in searching different varieties of products available in Indian e-commerce sites. Due to large number of stores and products, it is using technologies like PHP APC caching and Sphinx Search to obtain fast search results. Progle can search in almost 10million entry's in less than few milliseconds. All aspects of project is done by myself including PHP scripting ,DBA and server management.
- [TechZoneMind](#) - A web technology related blog, posts include PHP modules for special functionalities.

EXPERIENCE

Software Engineer, QuintetSolutions

Edapally, Kerala — June-2012-Present

During my career as Software Engineer at QuintetSolutions, i am able to work in wide variety of web based projects. I have worked as a part of a team, as an individual and as a project lead in following projects.

Accomplishments

- A web analytic solution uses PHP as main server side script. We have upgraded this website which rank within top 1,000 sites to handle traffic. We have used technologies like server side caching, 'Sphinx' search engine and MySql server replication to handle huge amount of traffic.
- A web and mobile based a ticketing platform for many stages in US. I had worked in this project to develop customer side(web) which handle ticket/buying selling process. This project used PHP as server side language and used CodeIgniter Framework.
- A system to process credit card transactions using mobile devices. I have worked on a team to develop API for mobile application using PHP as server side script.
- A shopping website based on opencart framework. We have done some modifications in opencart framework to sync product details and order processing with a remote server..
- Played an important role in development of web driver interface for the world's best flash storage provider. This is built using javascript MVC framework, Angular JS.
- Designed, and lead a team to develop complete ticket management interface for world's best flash storage provider. Main technologies involved are Laravel, Angular Js, Mysql and CSS3.
- Lead a team to develop a webservice which consumed by both web and mobile applications. This project is done in laravel framework and specific emphasis on performance and security.
- **Internal Projects** - During starting phases of my career at QuintetSolutions, I have developed internal projects like Qkitchen (System for taking lunch orders) and QTrack(Project Time tracking system).

CERTIFICATIONS

Zend Certified PHP Engineer

- Zend PHP Certification is an industry-wide standard that recognizes the expertise on PHP.
- Certificatified on Sep-1015, PHP 5.5
- <http://www.zend.com/en/yellow-pages/ZEND027863>

TECHNICAL SKILLS

Web - ServerSide	- PHP (Main), APC Caching, Sphinx Search
PHP Frameworks	- CodeIgniter, Wordpress, Opencart, Laravel (Main)
Database	- Oracle 9G, MySQL
Client Side	- Javascript, HTML5, CSS3, jQuery , Angular JS (Main)
Platform	- Linux (Ubuntu), Windows XP and higher
Issue tracking & SVN	- Git , GitLab, Unfuddle.
Tools	- Komodo IDE, Sublime Text, Mysql Workbench, cPanel, PhpMyAdmin

PERSONAL DETAILS

Date of Birth	:	2nd February 1991
Gender	:	Male.
Nationality	:	Indian.
Address	:	Kallarakkal House Elavoor P.O Angamaly Ernakulam(DIST) PIN : 673572
Mobile	:	+91- 9400771075
Email ID	:	jithinjose2@gmail.com
Website	:	jithin.pw

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.

Place : Angamaly

Date : 22 - 09 - 2015
